Centro Software

Centro Software is a 35 years experienced software house with over 3.000 worldwide customers - including Romania. We focus on the development and implementation of ERP systems, Industry 4.0 customised projects and BPM (Business Process Modeler). We have a network of over 80 Gold Partners - such as Pinewood Consulting in Bucharest - that are able to deliver the best support and assistance to our clients locally.

Asined Automotive

Asined Automotive L.T.D - Bucharest, Romania- is manufacturer of textile packaging and plastic items for automotive industry and also railway, banks, home appliance industries. We can provide:

1. Textile packaging for protection of plastic appearance pieces and also other automotive textile accessories for helping you to make an important saving such as textile pallet covers.
2. Laser Cutting services on textile material with technological signs. Plastics with textile inserts /Organic leather .
3. Special stitches / decorative stitches
4. Plastic Parts – molds & injection of plastic parts for big or small projects

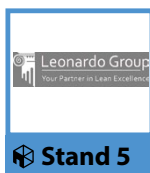

Euro Sandow

Euro Sandow is one of the leading producers for custom made elastic nets, shock cords, bungee cords, elastic straps, luggage and floor nets for a wide variety of securing applications. Most of the products are designed for the automotive industry as a 2nd tier supplier.

E-Cablaje

E-Cablaje is one of the main Romanian producers of electrical cables, control cables, brake and clutch, for motor vehicle, cords and leads, insulated, electric, with moulded-on plugs, cable assemblies, wiring harnesses/looms and cable connector assemblies.

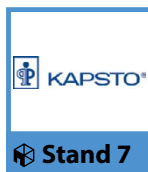

Leonardo Group

The Leonardo Group is a premium supplier of lean supply chain solutions, which includes: Lean material flow: products to move components from supplier to the workstation (point of use) and finished goods to the customer Visual management: products to visualize material and information flow Training and workshops to increase the practical knowledge of employees regarding lean management, to make them active participants, leaders in continuous improvement/kaize, Consulting and coaching services to guide customers through the process of implementing a lean value stream.

Admasys Ro

We offer the widest range of 3D technologies on the Romanian market: 3D technologies, high quality 3D printers and accessories, scanners and metrology, software, supplies, materials and services. Professional services - from professional consulting to customised services. 3D printing, scanning and modelling to training, service and support technical support. We understand the needs of manufacturing companies.

Pöppelmann

Pöppelmann KAPSTO® – Plastic protective caps and plugs for every application. Our KAPSTO® protective caps and plugs ensure optimum protection during production, storage and transport. Every protection element of our KAPSTO® standard program with over 3,000 versions perfectly protects your application. – All individually tailored according to your requirements. Whether robust, low-abrasion, temperature resistant or sealing – you will find the right protective element here.

Csiha Innovation and Technology

Where the impossible is just another challenge! We have been active in the field of engineering electronics since 2009, offering customized solutions to our business partners. Our specialized expertise and product development experience enable us to respond cost-effectively, yet exceptionally, to both software and hardware challenges - keeping in mind the expectations of today's technological trends. We provide comprehensive solutions for anything that optimization, digitalization, process control, automation, manufacturing, operations. We are present throughout the entire country by 8 000+ online devices, daily 50Gb+ data and nearly 1 000 000 customers.

Sauter Turning Process

The Sauter company is a family company with 2 production plants in Germany and a subsidiary Sauter Turning Process S.R.L in Dej, district of Cluj - Romania. We manufacture turned parts and assemble assemblies for every customer and industry, whereby our core competencies are not only in the implementation of customer products, but also in process development and process management. We are happy to support our customers with our competence team right from the development of the "ideal" turned part for the assembly in order to achieve the most economical result right from the start. Our future-oriented performance is based on long-term growth and economic success is based on customer and employee satisfaction. Sauter Turning Process S.R.L develops complete manufacturing and logistics solutions for turned parts and assemblies. Our process competence ranges from sample and pilot series to small series and large series. Thanks to lean production and the control of the process based on customer requirements, we are able to manufacture and deliver reliable quality quickly and flexibly.

Bufab Romania

We offer an extremely wide range of stocked standard fasteners, and we specialize in trading with any imaginable C-parts according to your unique needs and demands. It could be a magnet, metal, or plastic part. It could be turned, injected, extruded, stamped, forged, milled, molded, or even assembled. All parts of our offer are based on years of experience in how we can make a difference for you as a customer in the best way. It's about helping to reduce the total cost and complexity, free up capital, and achieve stable quality and deliveries. What it boils down to is a seamless supply chain, where the headache with C-parts is gone.

CERC - Timisoara

The Public Administration Service of the "Regional Center for Competence and Development of Suppliers in the Automotive Sector" - CERC is a service of local interest whose mission is to encourage investments in the automotive sector to support the sustainable development of the Timisoara Growth Pole - by implementing a package of services (space rental, CNC and plastic molding equipment rental, prototyping and small series production, testing and measurements on Mitutoyo Coordinate Measuring Machine) and some training programs for the benefit of the companies in the sector with the aim of increasing their skills, and implicitly the performance of the automotive sector at the regional level - so that the automotive sector produces a significant economic impact at the level of the Western Region.

MASTER

Production: Industrial Machines and Equipment - assembling, dosing, filling, packing, palletizing machines and production lines Pneumatic cylinders I Design, execution and montage of: Implementation of collaborative and industrial robots Automation of technology processes - Electrical switch boards Engineering, service I Trade with: Pneumatic means for automation Electrical equipment Linear and montage technique.

PQ Plast

PQ = Precision & Quality 1966: Gentner GmbH was founded - german family business. Constant improvement of the quality policy, trust towards customers leads to satisfied customers and long relationships. 2011: PQ-Plast SRL/Arad was founded. TODAY: more freedom, more responsibility. PQ-PLAST creates high-quality technical and functional plastic systems. Our know-how: development, tool making, injection molding, assembly, leathering & painting. Established processes: fully automated, fully controlled, traceability, environmental awareness, and ... german reliability in Romania. "WE CANNOT BE AVERAGE!"

INMAACRO

Due to the ambition of the company management, the business has grown organically, with a natural evolution in the course of over 25 years of existence. INMAACRO S.R.L. has extensive experience in providing industrial equipment. INMAACRO S.R.L. is the technical and commercial representative of companies from Germany, Switzerland, Holland, Italy and Taiwan which are producers of machine tools, measuring and control machines, cutting tools, accessories and software. Also, INMAACRO S.R.L. manufactures custom made tools, custom made clamping devices for machine tools and coordinate measuring machines, molds, precision parts, automation. Our specialists realize customer specific applications, commissioning, trainings, service, calibrations, turn-key projects, CAD design, CAM programming, measuring and control of parts, production start-up and AUKOM training. INMAACRO S.R.L. aims to promote quality, specialized market research, continuous technical training, organizing of technical presentation at the company's headquarters and meetings of diverse technical application, being a reliable partner according to the ambitions and demands of beneficiaries in Romania.

Daikin

With nearly 100 years of experience in the design and manufacture of heating and cooling technologies, Daikin is well recognized for its innovative approach to product development, unsurpassed quality and the versatility of its integrated total solutions. Daikin Romania is part of Daikin Europe N.V. (DENV), through Daikin Central Europe, its regional branch. DENV is responsible for development, production, sales and administration in Europe, the Middle East and Africa. Daikin has been present in the Romanian market since 1994 and collaborates with a complex network of local partners, offering complete heating, cooling, ventilation, air purification and refrigeration solutions for any type of space, be it commercial, industrial or residential. Daikin motto: Let's co-create a unique climate. Looking forward.

Fastenal Europe

Fastenal Co (Fastenal) is a construction equipment distributor. It provides industrial and construction supplies through wholesale distribution. The company's products include threaded fasteners such as nuts, bolts, screws, studs and related washers, which are used in manufactured products and building projects, and the maintenance and repair of machines and structures. Fastenal also offers miscellaneous supplies and hardware, including various pins and concrete anchors, metal framing systems, wire ropes, strut products, rivets, and related accessories. It operates through subsidiaries, stores and distribution centers spread across Chile, Brazil, China, India, the Netherlands, Mexico, the US, Canada, Hungary, Italy, Sweden, Romania, Poland, Austria, Singapore, Hong Kong, Malaysia, and Thailand, among other countries. Fastenal is headquartered in Winona, Minnesota, the US. The solutions provided by Fastenal range from Industrial vending machines to smart Kan-Ban systems to monitor and limit the spend on various commodities. We are proud to be the global leaders in Industrial Vending and recently we have become also the European leaders

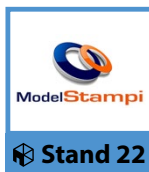

Foerch

Foerch Romania is one of the top companies with direct sales of consumables, fastening and anchoring elements for workshops and industry. We have a variety of products to meet all market requirements, as well as consultant specialists in the field. Our wide range includes consumables, tools, shop chemicals, shop equipment, diamond tools, construction chemicals, anchors, pipe insulation, roof vents and more.

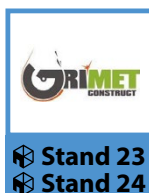

CRG Industry Service

We support technological evolution through innovative optimization systems in order to develop as many solutions as possible to improve the production process in as many fields of application as possible. From CAD design, to CAM programming for mold making. Molds: CRG uses collaborations with the best professionals in the mold sector, from prototype mold to series production molds for any sector (Automotive, Home Appliances, Electrification, etc.), using specific technical skills that allow to achieve cost reduction and increase the quality of always competitive production. Control devices: With extensive experience in making Control Devices, we provide our partners with the best solutions to support their needs. The experience gained in different sectors allows us to deal with measuring equipment using a wide range of materials. All our systems are then checked in dedicated measuring chambers. The development achieved so far allows us to match our skills with the high-tech aeronautical industry.

Model Stampi

Since 1999, Model Stampi has been a trusted partner specialized in the manufacture of thermoplastic injection moulds for prototypes and series production, in aluminium or steel, for the automotive sector as well as for other markets including motorbike, household appliances, furniture, industrial and healthcare. Starting from the product feasibility study, moving on to mould construction and ending with the production of the plastic part, we support our customer throughout the process development.

Grimet Construct

Grimet Construct is a manufacturer of mechanical parts using cutting, turning, milling, drilling, welding and manual assembling as fabrication processes. We have CNC machines (manuals, semiautomatic, full automatic), welding robots, 3D machine for measurements. As a market we have a large specter as: automotive, industrial, food, electrical distribution, aviation, railway and we deliver Europe but overseas as well. Our company is also specialized in the design and manufacturing of special machines and devices with wide range of applications: assembly lines, end of line tester, conveyors and transportation systems. Therefore, we are able to produce as a manufacturing batch from unique parts to thousands, which is usually highly appreciated by our customers.

Colop Romania

The objective of Colop Romania is to offer complete marking and personalization solutions to fully cover the needs of all customers. Colop recently launched a revolutionary product: e-mark. It is an electronic mobile marking device, which allows the creation and modification of imprints graphic through an application on a mobile device or PC and printing them on various surfaces with a simple swipe. With REINER, we are bringing flexible, mobile and lightweight marking to the industry. Whether it is barcode, number, text, date or logos, REINER offers individual marking solutions according to your requirements. Reiner – portable electronic inkjet devices for printing various types of surfaces and materials: metal, plastic, glass, paper, corrugated cardboard, eggs, etc. Production of our customers, no matter if it is a small or big business, it is sustained by Aeon Laser, engraving and cutting machines and Purex, filtration systems.

Naltek Solutions

Naltek Solutions is a company with a clear vision of the future, which consists of long term collaborations maintained to assure top quality electronic insulation materials from the Elantas Bectron product line. We believe that the result of the collaboration with us must always be a triangulation of the 3 most important elements: price, quality and sustainability. Our goal is to deliver the most efficient solution to any customer demands. The Bectron product line offers | Thin film coatings with Alkyd, Silicone | Thick film coatings VOC free with PUR, Epoxy, Silicone | | Conductive inks, Insulating inks, Luminescent inks designed for Printed Electronics | | Melting resin VOC free | | Polyurethane (1k or 2k) | | Silicone (Gel type to soft-elastic molding materials, adhesives and sealings) | We are looking forward to cooperate based on effective, and most importantly, private communication regarding to any projects, protected by Non-Disclosure Agreements. For any questions regarding to how Naltek Solutions works, you are invited to contact us at nichiforlx@naltek.net or leave a message on our website!

Vieweg

Our products range from simple hand-held dispensing devices to complex integrated "in-line" 4-axis robotic systems. All our equipment is supplied directly from our facility in Kranzberg. Our highly qualified engineers and customer service team provide full support to our customers in Germany, Austria, Romania, Switzerland, Czech Republic as well as many other countries in Eastern Europe.

ROMET

ROMET is a solid Italian-Romania company, which is a part of an industrial group that for 40 years has worked in the field of cutting, punching and welding metals. The know-how acquired over time, ensures solving various problems encountered and customer's needs. Romet is specialized in working with progressive dies with presses up to 315 tons with working plans of 2500x1250 mm with electronic power supplies, with a maximum width of 750 mm and a thickness of 4 mm and rolls of 4 tons. Our technical department is able to manage equipment for producing parts from stainless steel sheet, pre-painted, galvanized and aluminized.

Lord Industrial Tools

Established in the year 2007, Lord Industrial Tools is a multi-catalog company with more than 15 years of experience in the industrial field, who wants to bring an addition to the Romanian market through high quality products and services. Our core business is related to supplying industrial furniture, maintenance tools and technical solutions. OUR VALUES ARE: Continuous evolution: we support long-term development; Rigorous approach: we search and build in alternatives in detail to propose the solution that suits you best; Commitment: We believe in taking on the goals and responsibility for their completion; Focus on quality: we focus on ensuring a high quality of all our solutions; Dynamism: we continuously adapt products and solutions to our customer needs. Our main objective is the permanent development of the range of our products, exceeding the expectations of our partners, offering the most professional products and solutions. We support our customers with a dynamic team who, over the years, has acquired the necessary experience, offering optimal solutions for industrial fields.

Dallmayr Vending & Office

Dallmayr stands for outstanding product and service quality with a tradition going back more than 300 years. Dallmayr is a German company known for its high-quality coffee, gourmet foods, and luxury products. Over the years, Dallmayr has established itself as a prestigious brand associated with fine foods, beverages, and culinary experiences. Dallmayr Coffee and Vending & Office: the coffee business and the vending machine service have developed over the last 50 years to become the company's largest divisions. Dallmayr Coffee is one of the leading consumer goods brands on the German food and drinks market. Besides the premium brand PRODOMO, the best-known brands are capsa and Crema d'Oro. More than 80,000 tones of coffee are roasted every year. With more than 100,000 coffee machines, cold drinks machines and snack machines, Dallmayr Vending & Office is one of Europe's leading vending machine operators. The division is active in a total of 18 countries throughout the world. In Romania Dallmayr is present since the year 2000 and is known for the quality of the vending service.

Itecmo

Portuguese Mold maker established in 1984, ITECMO is specialized in the development and manufacturing of injection moulds for plastic industry. Skilled technicians along with investment in modern equipment followed by updated CAD / CAM systems give us the ability to develop different types of molds such as: bi-material moulds, gas-assisted injection moulds, water-assisted injection moulds, prototype and many others. Itecmo provides the highest service level to their clients, starting with 3D design, programming, machining, assembly and try-outs, including rheological studies in a complete partnership with our clients. Here you will find the answers you search for, thanks to our highly motivated team waiting on new challenges to give shape to new ideas.

Noatelli & co

Noatelli&co aims to sell and supply equipment for all processes and fields such as: Plumbing, Thermal Installations, Air conditioning installations, Ventilation Installations, Solar installations, Pumping and drainage, Compressed air, Industrial installations and process equipment service, Spare parts for pumps, multibrand heat exchangers, Hydraulic installations for emulsions and lubrication systems.

Danutek Balkans

Danutek Balkans is a Partner for Success in the Electronics Industry - Innovative Equipment, Services, and Support.

Multitech

Efficiency on the Production Line - For more than 14 years, Multitech has been offering equipment and specific solutions to manufacturing industries from the most important global brands in the fields of marking, labeling and industrial automation. Multitech's solutions support and optimize the production processes of hundreds of companies in Romania.

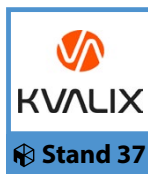

Frilame

ISO9001: 2015 and ISO14001: 2015 certified, Frilame has been providing expertise in plastics processing for almost 20 years. In 2019, we joined the Plasturgia group by getting closer to the Caliplast company. We continue to benefit from the injection tool manufacturing activity of Frilame France (now marketed under the Wenoplast brand). Thanks to the support of Plasturgia based in France, we can provide you with a complete offer, from the design of your product to the final part, through mold making and compliance control. Our ambition: to bring you a global offer in plastic injection.

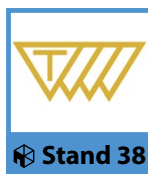

Zaleco

We, at Zaleco, have grown into more than just a packaging company; we are a community of inspiring people, bound by the entrepreneurial spirit, and empowered to make a difference. We understand that creating a packaging solution is not just about encasing a product; it's about wrapping up a brighter, more sustainable future for generations to come. From sourcing ethical materials to implementing energy-efficient manufacturing processes, our commitment to bettering the planet is unwavering. As we look to the future, we are excited to continue our journey with you. Let's grow together, shaping a landscape filled with not just packages, but promises—promises of quality, integrity, and a sustainable world. Thank you for trusting us to be a part of your story!

Kvalix Automatika

Kvalix Automatika is a competent partner in factory automation. Located in Hungary and Romania, Kvalix Automatika is distributor of sensors and controllers for industrial automation, designs and produces special purpose inspection and assembly lines and machines, mostly for the automotive industry, and performs precise and quality machining of small-batch metal and plastic parts. Kvalix is ISO 9001, ISO 14001 and ISO 45001 certified.

Trelleborg Sealing Solutions

Trelleborg Sealing Solutions offers you everything from the versatile elastomer O-Ring to complex multi-faceted PTFE based and polyurethane geometries. And in the unlikely event that none of these suit your requirements, we can develop a specific product for your application.

Planimolde

Since 1978 Planimolde holds a very strong position in the MouldMaking Industry worldwide. Planimolde is specialized in medium sized injection moulds & plastic parts and was the first Portuguese Mould Maker to have its quality system certified according to ISO 9001. High Quality, Precision, State-of-the-Art Technology and a Specialized Team guarantee you the best results, meeting your specific requirements.

PMM

PMM is an award-winning Portuguese mold company with 35 Years and have a team of 40 people, producing tools to all over the world. We would like to call your attention to a unique technique in the mold industry, our ECP (Electro Chemical Polishing), a process which polishes and reduces the roughness of the surface up to 7 x using the same electrode used on EDM and ensures the geometric rigor of the part with a blind mirror surface finishing. In case you have a project in hands which we might quote for you, we would be pleased if you give us the opportunity to submit an offer, so that you can get an idea about the competitiveness and professionalism of our company. We believe that we have the characteristics and skills to work with your company and because of that we would like to invite you to visit PMM. If you have questions or need further information, please do not hesitate to contact us.

Siskon Industrial Software & Automation

Siskon is an emerging engineering company specializing in industrial automation systems and process control. The goal of Siskon is to provide its customers with the highest and best suitable technology, and to serve its customers with quality products and professional integrity to achieve total customer satisfaction. Besides developing sophisticated control equipments and software for the manufacturing industry, Siskon also provides key solutions such as technical support, project feasibility analysis, equipment selection, sourcing, software application, system installation and ramp-up, documentation and on-site training services to many industries including electronics, machinery, natural gas and tobacco. Siskon provides turn-key solutions. Software projects are developed by using new generation visual programming languages and high-level SQL data base programs. The software projects are implemented by using both vendor and custom-made software programs.

[expleo]

Stand 42

Expleo Group

Expleo is a global engineering, technology and consulting service provider that partners with leading organisations to guide them through their business transformation, helping them achieve operational excellence and future-proof their businesses. Expleo benefits from more than 40 years of experience developing complex products, optimising manufacturing processes, and ensuring the quality of information systems. Leveraging its deep sector knowledge and wide-ranging expertise in fields including AI engineering, digitalisation, hyper-automation, cybersecurity and data science, the group's mission is to fast-track innovation through each step of the value chain. As a responsible and diverse organisation, Expleo is committed to doing business with integrity and working towards a more sustainable and secure society. Expleo boasts an extensive global footprint, powered by 17,000 highly-skilled experts delivering value in 30 countries.

ROVISIM
GROUP

Stand 43

ROVISIM Group

ROVISIM GROUP is your partner for the implementation in the production process and not only. With the help of our experience in the field of industrial automation, we actively support you to increase productivity, competitiveness and reduce costs and consumption. Rovisim Group has established strong partnerships with specialized manufacturers for the supply of equipment and components for industrial automation, respectively: - Irinox S.p.A. has been designing and manufacturing stainless steel frame elements for electrical enclosures since 1989. Thanks to its experience acquired over the years, coupled with ongoing technological research, Irinox is able to create premium quality certified products that are competitive in the Italian and international markets and fulfil the specific needs of each customer - ermo Precyzja started in 1995. The company's experience in the automation and measurement industry led it to start production of industrial thermosensors. Termo-Precyzja offers a wide range of thermocouples and RTD sensors made with M12, GDM, GDS connectors, box, cables. In production they use national and imported high quality materials. All products can be customized

Nutechnologies

Stand 44

Nutechnologies

Welcome to the 3D Printing Era With us, you will find the optimal 3D Printing Solutions, meant to bring agility and competitive advantages, to the development of your company. Since 2012, Nutechnologies proves ambition and professionalism, becoming the main supplier of professional 3D printing equipment in Romania. Our portfolio includes innovative industrial solutions for 3D printing (software, hardware, consumables), laser processing (welding, 2D / 3D marking, precision cutting), Nutechnologies is an Authorized Partner: Stratasys - the world leader in the production of professional 3D printers Sisma - the leader of the Italian laser systems market Materialize - the world leader in 3D printing software Our team offers the complete solution - from consulting in choosing the optimal technical configuration, installation, and training, support in project development, to all-inclusive maintenance. 3D printing has the potential to change everything - and with Nutechnologies you start the transformation.

ELECTROLYTIC
COATING

Stand 46

Electrolytic Coating

Located in the Transylvania region and only 35 km to the well connected city of Cluj-Napoca, Electrolytic Coating , company certified IATF16949, currently is supplying high alloy Zn coating (ZnNi) on metal parts, on both technologies, rack and barrel.

K.
FACTORY
all about operational performance

Stand 47

KFactory

KFactory is a designer, manufacturer, and distributor of smart technology software used to enhance the manufacturing process. Our leading-edge technology reinvents how factories operate by providing a unique platform that empowers manufacturers to reach production goals, improve production processes, and stay competitive within the industry. KFactory is your partner in your manufacturing success. We understand your operational processes and propose technical solutions that can maximize your manufacturing potential, efficiency, and performance, as well as make you more sustainable.

Dexion
Gonvarri Material Handling

Stand 48

Dexion Storage Solutions

The Dexion company (from the Ancient Greek meaning 'Right') was originally founded by Demetrius Comino. Comino developed the 'Dexion Slotted-Angle' (1947), which introduced the world to adjustable storage and would go on to blaze the trail for Dexion's purpose-built pallet racking and shelving systems. Today we are one of the world's leading providers of warehouse logistics solutions. Since January 2018, Dexion has been a member of the Gonvarri Material Handling Group, which also includes the leading industrial brands Constructor, Kasten, Ståltechnik and Kredit. With a total of 7 production sites in Germany, Romania, Russia, Finland, Sweden and Czech Republic, we supply our customers worldwide with tailor-made logistics solutions. From static racking to fully automated storage solutions, we provide our customers worldwide with complete solutions for their warehouse. We employ 1,300 people in Europe. We are also represented in Europe and in large parts of the world such as Africa, the Middle East, the USA and South America with an extensive distribution network. No matter where you are, as a global player we are always close at hand.

DS
Smith

Stand 51

DS Smith Packaging Romania

DS Smith Packaging is part of the DS Smith Group, being present locally with 2 Box Plants, in Ghimbav and Timisoara, 3 Service Centres in Timisoara, Pitesti, and Bucharest, and a sales office in Bucharest. DS Smith is a leading provider of sustainable fiber-based packaging worldwide, which is supported by recycling and papermaking operations. It plays a central role in the value chain across sectors including e-commerce, fast moving consumer goods, and industrials. Through its purpose of 'Redefining Packaging for a Changing World' and its Now & Next sustainability strategy, DS Smith is committed to leading the transition to a low carbon, circular economy, delivering more circular solutions for its customers and wider society - replacing problem plastics, taking carbon out of supply chains and providing innovative recycling solutions. Headquartered in London and a member of the FTSE 100, DS Smith operates in 34 countries employing around 30,000 people, and is a Strategic Partner of the Ellen MacArthur Foundation.

BROSTRADING

Stand 52

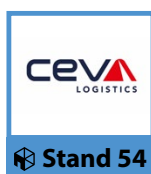

Bros Trading

We are a company specialized in the commercialization of components for industrial automation, offering a full range of products, mechanical, electrical and pneumatic components.

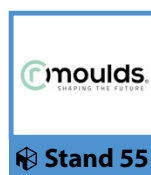

Effective Flux

With over 500 customers, from small to very large companies, automotive (T1, T2 or T3 suppliers) and other industries, we are a recognized experienced Consulting and Training services provider. Recently, we added Digitalisation products for: layout simulation, quality (poka yoke system based on Augmented Reality), industrial engineering (AI based platform). Over 60 consulting projects- capacity increase, Lean, quality improvements were successfully deployed in Europe, mostly at T1 and T2 suppliers. Over 20000 attendees were certified at our training sessions (quality, Problem Solving, Lean, time study, Six Sigma, MS Office) With over 50 employees, we are one of the largest Romanian company delivering consulting and training for process improvement.

CEVA Logistics

CEVA Logistics, a world leader in third-party logistics, provides and operates transportation and supply-chain solutions for large or medium size national and multinational companies. CEVA Logistics offers a broad range of end-to-end, customized solutions in contract logistics and air, ocean, ground and finished vehicle transport worldwide thanks to its 110,000 employees, operating over 1,300 facilities in more than 170 countries. CEVA Logistics' experienced specialists focus on seamlessly designing end-to-end customized solutions to meet the complex and rapidly evolving supply chain needs whatever the business sector. CEVA Logistics is part of the CMA CGM Group, a world leader in shipping and logistics.

CR Moulds

CR Moulds is a company with 20 years of expertise on manufacturing moulds for plastic injection moulding. It's a company that invests in technology and know-how to answer to the most demanding requests of the market. CR Moulds promotes a distinct support to its customers, being present on its facilities whenever needed. The company is committed to quality control, which it considers a key point to achieve efficiency and continuous improvement.

Intradefairs

Intradefairs is an online B2B and B2C platform for industrial companies, the organizer in Romania of the EMSETECH, Industry Expo, Automotive Expo and Technology Expo Trade Fairs.

Askania

Askania is a leading packaging supplier which offers a wide range of products classified into three main categories:

1. Cardboard and paper packaging;
2. Disposable products;
3. Raw materials from expanded polyethylene.

Transilvania Business

Monthly magazine Transilvania Business is the sole premium publication mainly focused on economic activities in Transylvania and Banat – Romania, but also integrates articles about main national investments and projects and also international trends & events

Profimatt

Profimatt is one of the main suppliers in Romania for technical training and workshop programs especially in the plastic molding domains.

Dallmayr

VENDING & OFFICE

All-round support

Dallmayr service

Thanks to our regional branch offices, we can be at your location in no time, whether it's to set up and provide training on the equipment, or to fill, clean and carry out maintenance on the machines.

Cashless payment

Dallmayr pay

Ideal for staff canteens and vending machines: Dallmayr pay provides a fast, convenient and secure cashless payment solution using employee ID cards or other means of identification.

Overall impression

Dallmayr accessories

From espresso cups and latte macchiato spoons to caramel biscuits and sugar sachets.

Variety in the cup

Dallmayr tea

Choose from a range of fine varieties in six categories: black, green, herbal, fruit, rooibos or wellness tea. More than half of our teas also bear the Bio (organic) seal.

The right Solution

The right solution

From analysis and expert consultation through to complete planning and implementation – we provide the right coffee and tea concepts tailored to your wishes and requirements.

Enjoy your coffee

Dallmayr coffee machines

Depending on your requirements, we will recommend the right vending machines from well-known manufacturers – ranging from espresso machines to complete vending stations offering snacks and cold drinks.

Quality at its best

Dallmayr coffee

We will regularly deliver just the coffee you need – for espresso, classic coffee or latte macchiato. A diverse range with the quality you would expect from Dallmayr – including products that bear the Bio (organic) and Fairtrade seals (Via Verde).

Customized concepts

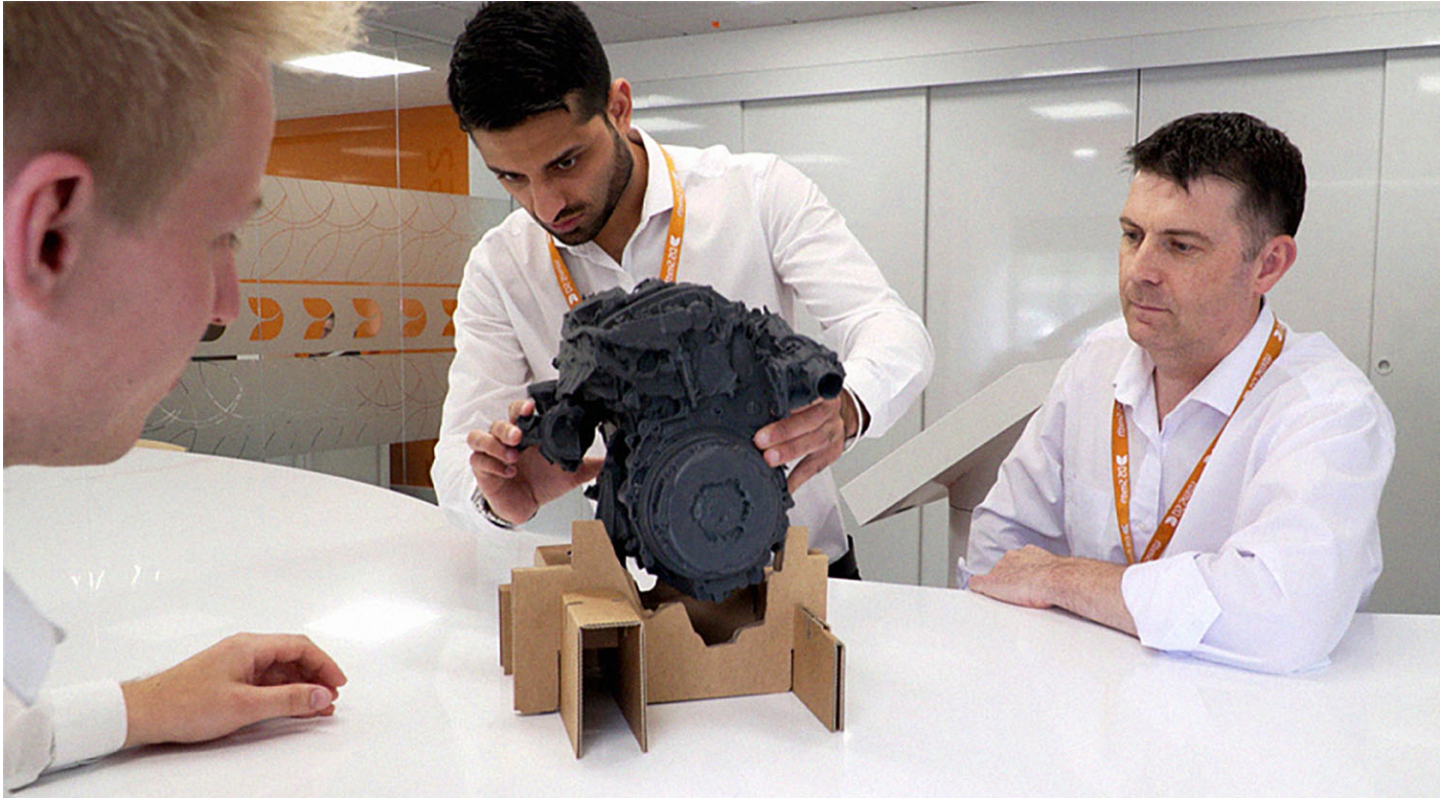

Dallmayr ambience

On request, we will design and implement modular, high-quality room concepts that you can add to as required.

PACKAGING SOLUTIONS FOR THE AUTOMOTIVE INDUSTRY

A WIDE RANGE OF INNOVATIVE PACKAGING SOLUTIONS FOR THE GLOBAL AUTOMOTIVE INDUSTRY AND COMPONENT SUPPLIERS.

Reliable Services

Fast deliveries for customers for whom we ensure stock.

Short lead times

Our custom designs take weeks, not months, from development to delivery.

Plastic replacement

Reduced development costs compared to other packaging materials used in the automotive industry, reduced storage space, and minimized CO2 footprint.

Custom design and printing

Our customized packaging solutions ensure optimal protection for your automotive parts and reflect your brand.

! Your opinion matters!
