Decomar Logistic

is a commercial company established in 2010 and whose main object of activity is the quality control, sorting and retouching of auto components received from manufacturers in order to verify them according to the legal standards imposed by the end customer.

Miller Manufacturing

CNC metalworking company with World Class Manufacturing standards and integrated Management System based on digital managerial tools compliant with Industry 4.0. We are working with clients from automotive and aero-space industry, providing high complexity parts at high precision standards.

E-Cablaje

is one of the main Romanian producers of electrical cables, control cables, brake and clutch, for motor vehicle, cords and leads, insulated, electric, with moulded-on plugs, cable assemblies, wiring harnesses/looms and cable connector assemblies.

Octavic

Octavic's mission is to deliver the best decision-making framework in the industry by offering real-time insights from manufacturing processes. As a young and dynamic startup, our solution is quickly being adopted by the pharmaceutical, automotive, and other manufacturing industries all around the world.

Schoeller Allibert Hungary

Schoeller Allibert is the European market leader of returnable industrial plastic packaging solutions. We offer a comprehensive range of standard and tailor made RTP packaging solutions dedicated to industrial manufacturing, such as: Foldable Large Containers, Foldable Small Containers, Rigid Pallet Containers, Stackable and Stack/Nest handheld boxes, Pallets and Dollies. We focus not only on standard returnable packaging, but strive to foresee the trends of our main markets and invent new solutions to future needs in packaging.

Bunzl Romania

By providing our customers with a broad range of essential PPE, available from stock, they are able to focus on their core businesses, achieve purchasing efficiencies and savings and minimise their working capital requirements. At Bunzl we source, we consolidate and we deliver. Bunzl is a world leader in the distribution of: Personal Protective Equipment, Packaging and Hygiene supplies.

Warehouse Design Systems

Warehouse Design Systems is the only authorized distributor of ASAFE International products in Romania. With our pioneering safety campaign, The Hidden Cost, we're striving to improve industrial safety, putting a spotlight on the hidden cost of workplace accidents. We are a safety providing partner, offering our collaborators innovation solution of protecting people, property, profits and performance.

Bufab Romania

We offer an extremely wide range of stocked standard fasteners, and we specialize in trading with any imaginable C-parts according to your unique needs and demands. It could be a magnet, metal, or plastic part. It could be turned, injected, extruded, stamped, forged, milled, molded, or even assembled. All parts of our offer are based on years of experience in how we can make a difference for you as a customer in the best way.

Oechsler Romania

OECHSLER Romania SRL, Lipova, Arad County, Romania-Subsidiary plant was opened in 2007 and is a 100% subsidiary of parent company OECHSLER AG (Germany). From the precision part to the high-end component, from design components to mechatronic devices or footwear – OECHSLER has the system expertise to build customized innovative products, from concept to completion.

Pöppelmann Kapsto

Pöppelmann KAPSTO® Plastic protective caps and plugs for every application. Our KAPSTO® protective caps and plugs ensure optimum protection during production, storage and transport. Every protection element of our KAPSTO® standard program with over 3,000 versions perfectly protects your application. – All individually tailored according to your requirements. Whether robust, low-abrasion, temperature resistant or sealing – you will find the right protective element here.

Global Source

With a rich high end equipment portfolio and a experienced team in customized solutions for microscopy, metallography, and dedicated industrial furniture, we open new paths in production, innovation and industrial research. We offer integrated and flexible solutions from a vast (diversified) range of equipment from various manufacturers. We develop workflows and equipment for industrial laboratories which are adapted to the requirements of each particular project.

AABO-IDEAL A/S

AABO-IDEAL A/S is a company based in Denmark with more than six decades of experience in manufacturing industrial solutions for surface treatment and over 4800 installations all over the world. The production is focused mainly on powder coating lines, liquid paint lines and electro-phoretic lines (KTL/ATL). In this turbulent time, we offer alternative heating solutions and systems for heat recovery and reduction of CO2 footprint.

Wagner

WAGNER is a leading global supplier of industrial surface finishing systems with extensive experience in a wide range of sectors. Whether complete systems or single components – we offer the ideal solution for your individual application. POWDER COATING - We supply a wide range of custom-built solutions for powder coating applications.

Bio-Circle Surface Technology

Bio-Circle Surface Technology GmbH has been standing for the development, production, and distribution of innovative chemical and biotechnological products all around surface technology for 30 years.

We are happy to present you with our innovative products. Water-based cleaners with zero VOC content, low-temperature cleaners, protective stainless steel care products, state-of-the-art parts cleaning systems and useful accessories.

Grimet Construct

Grimet Construct is a company with Romanian capital, founded in 2006, at the beginning as a manufacturer of light metal components. We are customer-oriented company, for this purpose developing new products and technologies.

KFACTORY

If your company deals with manufacturing companies and is looking for a way to differentiate itself from the competition, you can join the KFactory partner program. We can concretely discuss the advantages of partnering with KFactory and how you can transform your customers' traditional production process into a new one, where industrial equipment, orders, operators and support teams are part of a well-coordinated digital process. We come up with this challenge because we understand that the digital transformation process can be an extremely useful tool.

CGR Transilvania

CGR Transilvania is certificated with IATF 16949: 2016 and we have customers in the automotive industry (ex Valeo, Continental, Vitesco) but also non-automotive (ex Schneider). As main processes we mention overmolding, plastic injection, stamping, assembly, pad printing.

Lavmi Perla

Established since 1992 and become automotive parts producer in 2004. Became Tier 1 supplier for Dacia, Group Renault, in 2010. Partner for Renault in many projects - DACIA LOGAN, DACIA DUSTER (all generations), RENAULT ARKANA, RENAULT K-ZE etc. Main industries served : Automotive, FMSG

Antemie

With an experience of over 25 years, a turnover surpassing 1 million Euro a year, and more than 45 employees, SC ANTEMIE SRL manufactures and sells custom-made and mass production items, manufactured through splinting processes, and industrial textile items. In the last few years, besides our own investments in high-performance machines, we have managed to start developing our automation department and even deliver prototypes to our clients.

Zaleco

we are a multi-material company specialized in industry packaging, offering solutions in cardboard (including inlays, dividers, boxes and many more), honeycomb cardboard, packaging foam (EPE, PU, EVA foams) (cutting, stamping, laminating, assembly), ESD foam (dissipative, conductive), alveolar plastic (including returnable boxes with accessories and inlays), corrugated PP plastic sheets, corrugated PP plastic boxes, corrugated PP plastic dividers or plywood/MDF solutions.

PQ - Plast

we are a multi-material company specialized in industry packaging, offering solutions in cardboard (including inlays, dividers, boxes and many more), honeycomb cardboard, packaging foam (EPE, PU, EVA foams) (cutting, stamping, laminating, assembly), ESD foam (dissipative, conductive), alveolar plastic (including returnable boxes with accessories and inlays), corrugated PP plastic sheets, corrugated PP plastic boxes, corrugated PP plastic dividers or plywood/MDF solutions.

Politech Expo

Politech is a leading supplier in the construction of modular exhibition stands and the rental of furniture and equipment for stands.

Multitech Industrial

Efficiency on the Production Line - For more than 14 years, Multitech has been offering equipment and specific solutions to manufacturing industries from the most important global brands in the fields of marking, labeling and industrial automation. Multitech's solutions support and optimize the production processes of hundreds of companies in Romania.

Alfa Motor Technology

Since 2004, we have been producing stamped, embossed, welded and painted in electrostatic field series parts. In 2014, we have approached the field of industrial mechanical engineering and started manufacturing machine tools and workstations for series production, embossing dies and metal punches. As of 2017 we offer PLC programming for process automation, machine tools and dedicated software. We aim to become one of the main suppliers of products in the field of mechanical engineering and automation.

Profimatt

Profimatt is one of the main suppliers in Romania for technical training and workshop programs especially in the plastic molding domains.

Algeco

For 15 years, Algeco has been developing innovative and sustainable modular spaces in Romania for clients from the most important public and private sectors.

Centro Software

Centro Software is a 34 years experienced software house with over 3.000 worldwide customers - including Romania. We focus on the development and implementation of ERP systems, Industry 4.0 customised projects and BPM (Business Process Modeler). We have a network of over 80 Gold Partners - such as Pinewood Consulting in Bucharest - that are able to deliver the best support and assistance to our clients locally.

Panduit Europe

Panduit was started by a spark of innovation that changed the way people thought about cable management. In 1955 we launched our first product, Panduct Wiring Duct, an invention that organized control panel wiring and allowed new wires to be added quickly, neatly and safely.

SRO Industry

SRO Industry is a supplier for cable management systems, wires & connectors, protection & fixing systems, and other dedicated products for cable assembly and harnesses.

Wizrom Software

Wizrom Software is one of the most innovative business management software providers in Romania. Wizrom offers some of the most advanced planning and ERP software solutions to lead its customers to success.

NC-Vision

NC-Vision was created as a revolutionary software toolbox for production and traceability, covering each process of a production environment from manufacturing execution, warehouse, track and trace, quality management and much more. Based on our approach, businesses from all industries mix and match just the modules needed for an affordable solution.

Fastenal Europe

Today, Fastenal is many things to many different customers, an expert consultant, a logistics company, a technology provider, and more generally a distributor of wide-ranging industrial and construction products. These aspects of service share a common foundation: great people, close to our customers. Our service model centers on approximately 3,200 in-market locations (a combination of public branches and customer-specific onsites), each providing custom inventory and a dedicated sales team to support local customers.

Admasys

We offer the widest range of 3D technologies on the Romanian market: 3D technologies, high quality 3D printers and accessories, scanners and metrology, software, supplies, materials and services. professional services - from professional consulting to customised services. 3D printing, scanning and modelling to training, service and support technical support. We understand the needs of manufacturing companies.

Nutechnologies

Welcome to the 3D Printing Era With us, you will find the optimal 3D Printing Solutions, meant to bring agility and competitive advantages, to the development of your company. Since 2012, Nutechnologies proves ambition and professionalism, becoming the main supplier of professional 3D printing equipment in Romania.

Edorom Metal

Component of DEKEM group with two other companies located in two powerful industrialized areas of France, Edorom Metal Romania provides metal products obtained by cold plastic deformation (stamping, cutting, drawing). We have automatic presses (from 40 to 250 T) and we work with progressive tools mainly (bending and assembly too). Raw materials have thickness: 0,3 to 4 mm (steel, stainless steel, copper, bras, galvanized steel etc).

Syoneex

SYONEEX is a smart manufacturing platform for aggregating, consolidating, processing and distributing data in various areas and covering all industry specifics. With over 13 years of experience & knowledge of manufacturing processes, technological changes & industrial systems, we are dedicated to develop the best smart manufacturing platforms.

SKY Courier

SKY Courier makes urgent transportation for special shipments, by air and by road. We offer 24/7/365 services at different airports in Romania, Germany and Hungary and not only. Our 24/7 services: - Assistance in Eastern Europe countries to US, Mexico and Asia - Airfreight NFO and OBC on first available flight - Pick-ups and deliveries by direct drives - Customs formalities. Why to work with us: - excellent customer service support available for you 24/7 - 24/7 customs formalities at Budapest Airp, Otopeni Airp. and Frankfurt Airp. - experienced team in urgent transportation.

PPI Adhesive Products

PPI Adhesive Products Limited was established in Waterford, Ireland in 1970 and is a world-renowned manufacturer of an extensive range of precision converted technical adhesive tapes, die-cuts, and laminates for a wide range of industries and applications, most notably in the Electrical, Electronic, Automotive, Aerospace and Medical sectors, as well as a wide range of tapes for specialized industrial and high-tech applications. Utilizing our experience in the development and manufacture of adhesive tapes, we can offer our customers the competitive edge required in a progressive marketplace.

Sauter Turning Process

The Sauter company is a family company with 2 production plants in Germany and a subsidiary Sauter Turning Process S.R.L in Dej, district of Cluj - Romania. We manufacture turned parts and assemble assemblies for every customer and industry, whereby our core competencies are not only in the implementation of customer products, but also in process development and process management.

MDE Converting

MDE Converting is a company specialising in the conversion of adhesive tape reels, beginning with Jumbo reels, as we cover all stages of processing and we may end up to the most complicated form, as required by our partners.

AWS Elektrotechnik

AWS Elektrotechnik proposes reliable solutions for equipment and systems used in most of the areas that form the industrial sector.

Demgy Group

Our MULTIPLASTURGY® concept allows us to simplify, LIGHTEN and implement your plastic projects, even the most complex.

GLABs

GLABs is a logistics solution for manufacturing and warehousing companies to fully manage all on-site transport and loading tasks.

Infinite Ratios

I'm an independent inventor. My invention consists in the development of a CVT type gearbox with an innovative operating principle.

Trieurodata

Since its establishment, in 2005, Trieurodata has distinguished itself on the Romanian market by its clear orientation towards customers and their challenges. Thus, together with our clients and for them, we have developed and integrated a wide range of solutions for process automation and digitization, marking and identification technologies, industrial robots, and cobots, industrial software, data collection, transmission, storage & processing.

Dexion Storage Solutions

The Dexion company (from the Ancient Greek meaning 'Right') was originally founded by Demetrius Comino. Comino developed the 'Dexion Slotted-Angle' (1947), which introduced the world to adjustable storage and would go on to blaze the trail for Dexion's purpose-built pallet racking and shelving systems. Today we are one of the world's leading providers of warehouse logistics solutions.

E.ON Romania

Energy efficiency solutions for a sustainable business. E.ON has developed a portfolio of solutions that support the businesses of its partners in the long term, contributing to the optimization of energy costs and the reduction of the carbon footprint.

Euro Sandow

Euro Sandow is one of the leading producers for custom made elastic nets, shock cords, bungee cords, elastic straps, luggage and floor nets for a wide variety of securing applications. Most of the products are designed for the automotive industry as a 2nd tier supplier.

Effective Flux

With over 400 customers, from small to very large companies, automotive (T1, T2 or T3 suppliers) and other industries, we are a recognized experienced Consulting and Training services provider.

Gotec Rom

Gotec Rom is specialized in metal and plastic parts surface treatment and coating of rubber - metal parts with bonding agent, as well as production of blank metal parts on CNC lathe. Available surface treatment processes: - Zinc Nickel treatment on racks, with or without sealing - Zn Ca Phosphating and Aluminium Phosphating in drums, - Degreasing: alkaline or with Perchlor steam, - Shot blasting, - Bonding agent application.

Electrolytic Coating

Located in the Transylvania region and only 35 km to the well connected city of Cluj-Napoca, Electrolytic Coating has established itself as one of the leading companies for surface treatment in Romania. We're currently supplying high alloy Zn coating (ZnNi) on metal parts, on both technologies, rack and barrel.

Askania

Askania is a leading packaging supplier which offers a wide range of products classified into three main categories:

1. Cardboard and paper packaging;
2. Disposable products;
3. Raw materials from expanded polyethylene.

TechnoMarket

TechnoMarket is the leading Romanian industrial magazine which covers a very diversified area of industrial domains.

Transilvania Business

Monthly magazine Transilvania Business is the sole premium publication mainly focused on economic activities in Transylvania and Banat – Romania, but also integrates articles about main national investments and projects and also international trends & events

InTradeFairs

InTradeFairs is an online B2B and B2C platform for industrial companies, the organizer in Romania of the EMSETECH, Industry Expo and Automotive Expo Trade Fairs

CNC Production & Mechanical chipping processes

S.C. ANTEMIÉ S.R.L. execute various unique metal parts made by cutting after the drawing recipient or by a model presented by the client and various machining;

We realize and design parts or devices required.

We provide a wide range of mechanical parts made of thermal treatment (eg. tempering, improvement, case hardening, carbonitriding) and surface treatments to protect the metal parts (eg. browning) by collaborators.

We manufacture unique or stock metallic parts for:

• Automotive industry • Polygraphic industry • Wood industry • Food industry • Pharmaceutical industry • Packaging industry

Industrial Automation

We offer a wide variety of industrial automation services based on our experience and our knowledge necessary for the design of devices used in the food industry, the cosmetics industry, the pharmaceuticals industry, and also in other industries.

Our team will offer you a complete solution tailored to your needs and will satisfy all the requirements within the term agreed and for the cost agreed.

We manufacture a wide variety of machines for the automotive industry which can be custom-made according to the requirements of the client, the type of the production and the business area. Our machines are designed to be efficient and have high performance with low maintenance costs. Also, we are manufacturing different types of electrical panels with or without the client's wiring diagram
