Multitech Industrial

Efficiency on the Production Line - For more than 14 years, Multitech has been offering equipment and specific solutions to manufacturing industries from the most important global brands in the fields of marking, labeling and industrial automation. Multitech's solutions support and optimize the production processes of hundreds of companies in Romania.

E-Cablaje

E-Cablaje is one of the main Romanian producers of electrical cables, control cables, brake and clutch, for motor vehicle, cords and leads, insulated, electric, with moulded-on plugs, cable assemblies, wiring harnesses/looms and cable connector assemblies.

Anorom

The ANOROM factory specializes in surface treatments for aluminum parts: decorative anodizing, hard anodizing, SURTEC 650 chroming. We have the ability to treat aluminum parts with dimensions up to 2700 mmx1000 mm and a weight of 350 kg/piece. We address the automotive industry, the aeronautical industry, the military industry, the electronic and telecommunications industry, the medical and pharmaceutical industry, the processing industry.

Procadimoldes

PROCADIMOLDES is a family owned company, established in 1994, in the manufacturing of plastic injection molds and is ISO 9001:2015 accredited since 2014. We stand for high quality standards and accuracy that are mirrored in the injection molds that we manufacture. The constant innovation and commitment on cutting-edge technology as well as the proactivity and excellence of our team are the key to our success. Know-How: Multi Components tools (2K & 3K), using several technologies: rotary system, transfer, index plate, core-back; Sandwich tools (Stackmold); Multi-cavities high performance tools for technical parts; Variotherm Technology (Heat & Cool); Gas Injection (GIT); Inserts overmolding; Thermoset injection molding (BMC - bulk molding compound); Automatic unscrewing system. Markets: Automotive, Home Appliances, Pharma and Medical Equipment, Packaging, Electrical and Electronic.

DEWA Romania

DEWA Romania is the local representative for Painting booths and preparation areas for many kind of paint applications. We have in our portfolio the following industrial areas: aeronautics, transportation (locomotive painting booth, bus painting booth), and a lot of car services. We provide and supply the equipment's and the service around them. We cover all the Romanian market and also we have equipment's installed in Republica of Moldova and in Hungary.

SAM

With SAM you get a long-term partner for the production of highly complex components, who impresses with close customer relationships and has been active in various branches of the industry for decades. Our team's deep industry knowledge, state-of-the-art facilities, and commitment to excellence ensure that your project is in safe hands. When you choose us, you gain a partner who is as invested in your success as you are.

Röchling Precision Components

With 451 employees and annual sales of around 56 million euros, Röchling Precision Components is a specialist in precision injection molding production in an international environment. With technologically sophisticated plastic applications and a wide range of high-precision components, the RPC Group mainly supplies its strategic customers Bosch, ZF, Continental, ETO, RAPA, Daimler, Hella and Würth Electronics. With many years of experience, high efficiency and flexibility, the company meets market requirements and acts in a future-oriented and sustainable manner.

CR Moulds

CR Moulds is a company with 20 years of expertise in manufacturing moulds for plastic injection moulding. It's a company that invests in technology and know-how to answer to the most demanding requests of the market. CR Moulds promotes a distinct support to its customers, being present at its facilities whenever needed. The company is committed to quality control, which considers a key point to achieve efficiency and continuous improvement.

InTradeFairs

InTradeFairs is an online B2B and B2C platform for industrial companies, the organizer in Romania of the Automotive Expo, Industry Expo, Emsetech, Manufacturing Expo, Technology Expo and Packaging & Logistics Expo trade fairs.

Foerch

Present on the Romanian market since 2008, FOERCH Romania is one of the top companies with direct sales of consumables, assembly and anchoring items for workshops and industry. Whether we are in the automotive, construction, metal, industrial or enterprise workshops, FOERCH is your competent advisor and partner for your workshop needs as well as for fasteners and fittings.

Siskon Industrial Software & Automation

Founded in 1997, SISKON SOFTWARE & AUTOMATION company has been providing advanced software and industrial automation solutions for the manufacturing sector for over 27 years. With expertise in consultancy, project analysis, automation, data collection and traceability, SISKON supports the textile, tobacco, home appliances, food, automotive and other industries. As of 2024, SISKON has offices in Turkey, Romania and Estonia, serving more than 50 factories in 40+ countries through a team of more than 80 professionals. ISO 9001:2015, ISO 27001:2022 and ISO 27701:2019 certifications reflect SISKON's commitment to quality and information security. The company holds 2 approved patents and has filed 11 patent applications, 6 of which are international, and is involved in 3 R&D projects, including one international.

Pöppelmann

Pöppelmann KAPSTO® - Plastic protective caps and plugs for every application. Our KAPSTO® protective caps and plugs ensure optimum protection during production, storage and transport. Every protection element of our KAPSTO® standard program with over 3,000 versions perfectly protects your application. - All individually tailored according to your requirements. Whether robust, low-abrasion, temperature resistant or sealing - you will find the right protective element here.

CED Central European Economic Development Network Nonprofit

CED Central European Economic Development Network Nonprofit Ltd. is the Hungarian Government's dedicated institution responsible for export promotion in Central Europe. Our objective is to foster and support the Hungarian manufacturers and service providers to enter foreign markets in the CE region, thereby increasing Hungarian export volume and the economic competitiveness of this region. With 20 offices in the neighbouring countries of Hungary plus Czechia and Poland and with 13 offices nationwide, CED has an overall picture of business demand and supply in the Central European region.

Stand 17-19

Edorom Metal

The main activity of EDOROM METAL company is cold plastic deformation, including the following processes: stamping, cutting / punching, progressive stamping and press assembly. Our equipment: automatic presses with a capacity between 40 and 400 Tf.

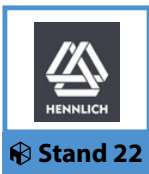

Stand 20

Ribermold

Ribermold is a family-owned mouldmaker company from Portugal, with 107 workers. Our capacity for mould production is 15Ton (max. weight), 1500x1100x1100mm (max. dim). Besides moulds for the medical industry, we support automotive industry, electrical, electronic, technical parts, houseware & packaging. Certificated with ISO9001 & ISO TS16949, we have currently 11 injection machines up to 700Ton. We supply our customers with turn-key solutions, from product development, prototype moulds, moulds production, testing & mass production of plastic parts/sub-assemblies.

Stand 21

Hennlich

HENNLICH, a Romanian-Austrian company, established in 2005, distributes products manufactured within the group as well as of other renowned external partners that it represents in Romania. The main goal is to support the Romanian industry with high quality products, with equipment for last generation machines as well as with technical solutions for each individual request. The product range: Machine building division springs polymer bushings/bearings, polymer joints, slide guides, polymer bearings - IGUS; Cable trays, flexible cables for dynamic applications, gutters - IGUS; Linear ball guides, ball screws, crossed roller bearings, metal joints, ball bushings, cover bellows - THK; Individual equipment and centralized greasing and lubrication systems - LINCOLN / VOGEL Telescopic covers, textile or rubber bellows, blinds Fluid Division Spray nozzles, spray lances, environmental solutions - LECHLER Armatures Pumps of various types, pumping aggregates, dosing systems - SERA, CAT Loading/unloading equipment Cooling systems, oil coolers, accumulators Electric companions for heating Seals, O-rings, sealing plates, sealing cords, hoses

Stand 22

TechnoMarket

TechnoMarket is the leading Romanian industrial magazine which covers a very diversified area of industrial domains.

Stand 23

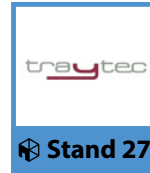

Askania

Askania is a leading packaging supplier which offers a wide range of products classified into three main categories:

1. Cardboard and paper packaging;
2. Disposable products;
3. Raw materials from expanded polyethylene.

Stand 24-26

Traytec Thermoforming

We currently have two ILLIG brand production lines with plans to expand to four more in the near future. Our ability to produce components and trays from a variety of materials including ABS, ABS-TPU, ABS-TPU (ESD), PS, PS (ESD), PE, PP, PET, PET-A, PET-G, PET GAG, PET-A/PE, with thicknesses between 0.3 - 12 mm, places us at the forefront of the industry. We are proud to also offer the ability to produce trays from recycled material in line with our commitment to sustainability. Thus, we not only satisfy the requirements of our current customers in Romania and Eastern Europe, but also contribute to protecting the environment. In addition, we offer our customers the opportunity to sell us trays that are no longer in use and can be recycled, demonstrating our commitment to responsible waste management.

Stand 27

Admasys Ro

We offer the widest range of 3D technologies on the Romanian market: 3D technologies, high quality 3D printers and accessories, scanners and metrology, software, supplies, materials and services. Professional services - from professional consulting to customised services. 3D printing, scanning and modelling to training, service and support technical support. We understand the needs of manufacturing companies.

Stand 28

Lord Industrial Tools

Established in the year 2007, Lord Industrial Tools is a multi-catalog company with more than 15 years of experience in the industrial field, who wants to bring an addition to the Romanian market through high quality products and services. Our core business is related to supplying industrial furniture, maintenance tools and technical solutions. OUR VALUES ARE: Continuous evolution: we support long-term development; Rigorous approach: we search and build in alternatives in detail to propose the solution that suits you best; Commitment: We believe in taking on the goals and responsibility for their completion; Focus on quality: we focus on ensuring a high quality of all our solutions; Dynamism: we continuously adapt products and solutions to our customer needs. Our main objective is the permanent development of the range of our products, exceeding the expectations of our partners, offering the most professional products and solutions. We support our customers with a dynamic team who, over the years, has acquired the necessary experience, offering optimal solutions for industrial fields.

Stand 29

Grupo Moldoeste

MOLDOESTE is a global supplier specialised in the development, design and production of high precision injection moulds and technical injection moulded components for the automotive, electro-electronics, home appliances and telecom industries, among others. An overwhelming desire to do things has always boosted our commitment to innovation and quality allowing us to be an active player in the supply chain of this challenging, ever changing and competitive business. No matter what your industry field is our wide expertise and know-how are at your service.

Stand 30

Mora IPR

Mora IPR from Mediaș is part of the Mora International group, being an experienced manufacturer in the injection of thermoplastic material products, for various industries, especially the automotive industry. Our experience allows us to simplify and implement plastic injection parts projects, even the most complex ones. The experience of the Mora IPR Medias team, in the injection of plastic parts, is at a high level, both for technical parts and for decorative parts. The experience in the injection process is complemented by the assembly department where there is expertise for:

- Insertion of metal inserts
- Pad printing
- Ultrasonic welding
- Manual, automatic and semi-automatic assembly
- Different control systems depending on the application.

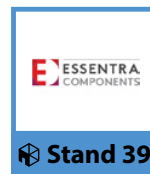

Effective Flux

With over 500 customers, from small to very large companies, automotive (T1, T2 or T3 suppliers) and other industries, we are a recognized experienced Consulting, Training and Digitalisation services provider. Digitalisation products are covering: shop floor document digitisation, improving production capacity and quality through digitalisation, quality (poka yoke system based on Augmented Reality). Over 60 consulting projects - capacity increase, Lean, quality improvements were successfully deployed in Europe, mostly at T1 and T2 suppliers. Over 22000 attendees were certified at our training sessions (quality, Problem Solving, Lean, time study, Six Sigma, MS Office). With more than 50 employees, we are one of the largest Romanian company delivering consulting and training for process improvement in production environment, including automotives.

Hamann

Hamann imports and distributes products specific to manufacturing processes, maintenance activities in the industrial sector and those who perform maintenance and repair work for cars, trucks or agricultural machinery.

Essentra Components

Essentra Components is a leading global manufacturer and distributor of industrial components. We offer a broad range of 45,000 products in 17 different product lines and custom solutions for a wide variety of projects. With 65 years of manufacturing experience behind us, we serve 70% of the world's largest manufacturers, alongside more than 80,000 small and medium-sized enterprises. Whether you need 500 pieces or 5 000 000 pieces, our flexible operating model allows us to provide you with what you need, when you need it. We have offices around the world, close to you. Our seamless, end-to-end service is backed by continuous innovation and a better digital experience. We make your job easier whether you're in engineering, industrial electronics, automotive, renewables, construction.

Zaleco

We, at Zaleco, have grown into more than just a packaging company; we are a community of inspiring people, bound by the entrepreneurial spirit, and empowered to make a difference. We understand that creating a packaging solution is not just about encasing a product; it's about wrapping up a brighter, more sustainable future for generations to come. From sourcing ethical materials to implementing energy-efficient manufacturing processes, our commitment to bettering the planet is unwavering. As we look to the future, we are excited to continue our journey with you. Let's grow together, shaping a landscape filled with not just packages, but promises—promises of quality, integrity, and a sustainable world. Thank you for trusting us to be a part of your story!

Curtiss-Wright Surface Technologies

Curtiss-Wright surface technologies provides customers a single-source solution and point of contact for all their controlled material surface treatments, supporting their requirements through our global network of over 70 worldwide facilities and on-site field teams, improving and reducing turnaround times and costs. We are material surface improvement specialists; protecting a range of components from common failures and reducing maintenance costs for key industries such as aerospace, oil and gas, automotive, medical and general industrial markets. Building on the unique heritage of Glenn Curtiss and the Wright brothers, Curtiss-Wright Surface Technologies has a long tradition of providing innovative, metal improvement solutions and building solid and trusted customer relationships. Our Services: Controlled Shot Peening, Laser Peening, Engineered Coatings

Kvalix Automatika

Located in Hungary and Romania, Kvalix Automatika designs and produces special purpose assembly and inspection machines, performs precise and quality machining of custom and small series metal and plastic parts and is distributor of sensors and controllers for industrial automation. Self-service high pressure car wash systems are designed and manufactured under the Kvaliwash brand. Kvalix is ISO 9001, ISO 14001 and ISO 45001 certified.

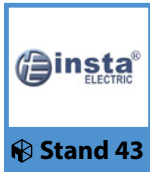

PQ Plast

PQ = Precision & Quality 1966: Gentner GmbH was founded - german family business. Constant improvement of the quality policy, trust towards customers leads to satisfied customers and long relationships. 2011: PQ-Plast SRL/Arad was founded. TODAY: more freedom, more responsibility. PQ-PLAST creates high-quality technical and functional plastic systems. Our know-how: development, tool making, injection molding, assembly, leathering & painting. Established processes: fully automated, fully controlled, traceability, environmental awareness, and ... german reliability in Romania. "WE CANNOT BE AVERAGE!"

KFactory

KFactory is a designer, manufacturer, and distributor of smart technology software used to enhance the manufacturing process. Our leading-edge technology reinvents how factories operate by providing a unique platform that empowers manufacturers to reach production goals, improve production processes, and stay competitive within the industry. KFactory is your partner in your manufacturing success. We understand your operational processes and propose technical solutions that can maximize your manufacturing potential, efficiency, and performance, as well as make you more sustainable.

Insta Electric

Insta Electric is a Romanian-based Original Equipment Manufacturer with an experience of over 3 decades in providing customized solutions, production capacities and a reliable quality of service and products to European and Swiss customers. The company is competent in: plastic injection moulding and over-moulding, cable and wire assemblies, metal parts (punching, drilling, threading, welding, coating, etc.), assembling, testing, packing and logistics.

Diaplast Production

Diaplast Production has over 18 years of experience in plastic injection molding, extrusion and assembly. We are leading supplier of plastic components for different industries, able to fulfill higher standards of fabrication/manufacturing, quality, packaging and logistics, specific on different markets. our know-how, specialized team and technical capabilities, allow us to assure for our customers complete services at higher standards.

INMAACRO

INMAACRO is the technical and commercial representative of companies from Germany, Switzerland, Holland, Italy and Taiwan which are producers of machine tools, measuring and control machines, cutting tools, accessories and software. Also, INMAACRO manufactures custom made tools, custom made clamping devices for machine tools and coordinate measuring machines, molds, precision parts, automation. Our specialists realize customer specific applications, commissioning, trainings, service, calibrations, turn-key projects, CAD design, CAM programming, measuring and control of parts, production start-up and AUKOM training. INMAACRO. aims to promote quality, specialized market research, continuous technical training, organizing of technical presentation at the company's headquarters and meetings of diverse technical application, being a reliable partner according the one ambitions and demands of beneficiaries in Romania.

CERC - Timisoara

We are a company from Timisoara City , CERC-Timisoara The overall objective is to support the implementation of a package of services and training programs for the benefit of enterprises in the sector. The strategic objective is to achieve the national benchmark status within the DKMT region in the field of innovation and know-how transfer for the automotive sector. The short-term goal is to create a functional center with 3 integrated components: a training academy in the automotive sector, a consulting portfolio for sector suppliers and a laboratory for the collaborative use of specialized equipment.

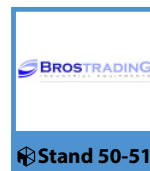

BGMgroup

At BGMgroup, we believe in a greener and more sustainable future, rooted in the principles of the circular economy. Our work centers on four essential pillars: Reduce, Reuse, Refill, and Recycle. Through the extrusion of alveolar polypropylene sheets (Alveoplast), we produce durable packaging that not only protects products but also the environment. Our solutions are designed to reduce material consumption and carbon footprint by utilizing resources efficiently and optimally. Each package is crafted for repeated reuse, providing customers with robust, durable, and customized solutions that significantly reduce the need for single-use packaging. Moreover, we encourage and support refill systems, extending the life of our packaging and maximizing its efficiency in logistics chains.

Sauter Turning Process

The Sauter company is a family company with 2 production plants in Germany and a subsidiary Sauter Turning Process S.R.L in Dej, district of Cluj - Romania. We manufacture turned parts and assemble assemblies for every customer and industry, whereby our core competencies are not only in the implementation of customer products, but also in process development and process management. We are happy to support our customers with our competence team right from the development of the "ideal" turned part for the assembly in order to achieve the most economical result right from the start. Sauter Turning Process S.R.L develops complete manufacturing and logistics solutions for turned parts and assemblies. Our process competence ranges from sample and pilot series to small series and large series. Thanks to lean production and the control of the process based on customer requirements, we are able to manufacture and deliver reliable quality quickly and flexibly.

Bros Trading

For almost 20 years, Bros Trading has been a complete dealer for the supply of equipment for the industrial automation sector. With the desire to offer the most complete service to customers, we sell a diversified portfolio of products, including any type of mechanical, electrical and pneumatic components intended for industrial automation The main customers are companies that make automation mainly in the automotive field, but not limited to this. We work with companies based in Romania as well as in Europe and outside the EU. Our mission is to respond to the needs of customers in the industrial automation sector by offering a complete service, at 360*, for each personalized need.

Danutek Balkans

Danutek Balkans is a leading distributor and service provider in the SMT Manufacturing Industry. We offer complete solutions in the field of electronic manufacturing and inspection equipment. Our engineering team provide service, installation, commissioning, training and applications support for our product range.

Cistelaier

Cistelaier is one of the leading printed circuit board manufacturers in Europe and is part of the PCB Division of the Finmasi Group. Cistelaier, Techci and EPN have been manufacturing printed circuit boards since 1976, 1983 and 1992, respectively. Combined, they boast over 100 years of experience in manufacturing PCBs. Their total production capacity is among the most significant in Europe. As a supplier of printed circuit boards to some of the world's leading manufacturers in the field of industrial automation, we are at the forefront of this evolution by constantly adapting our ability to meet new demands.

DS Smith Packaging Romania

DS Smith is a leading provider of sustainable fiber-based packaging worldwide, which is supported by recycling and papermaking operations. It plays a central role in the value chain across sectors including e-commerce, fast moving consumer goods, and industrials. Through its purpose of 'Redefining Packaging for a Changing World' and its Now & Next sustainability strategy, DS Smith is committed to leading the transition to a low carbon, circular economy, delivering more circular solutions for its customers and wider society – replacing problem plastics, taking carbon out of supply chains and providing innovative recycling solutions. Its bespoke box-to-box in 14 days model, design capabilities and innovation strategy sits at the heart of this response.

Electrolytic Coating

Located in the Transylvania region and only 35 km to the well connected city of Cluj-Napoca, Electrolytic Coating, company certified IATF16949, currently is supplying high alloy Zn coating (ZnNi) on metal parts, on both technologies, rack and barrel.

Grosvenor SCM

Grosvenor SCM, with the Head Office in Romania and operations in 6 countries, is one of the most important distributor in Electronic & Automotive Industry. With an experience of 18 years in the market we, continuously, adapt and improve our portfolio of products and services to help our customers in any demanding situation. During the years, we have developed strategic partnerships with leading manufacturers, helping us to serve our customers in Eastern European market at the highest level.

Würth Elektronik Romania

Würth Elektronik Group is the preferred partner of many developers and manufacturers from a wide range of industries. With its electronic and electromechanical components, printed circuit boards, and intelligent power and control systems.

Dexion Storage Solutions

Dexion Storage Solutions designs, manufactures and installs racking and industrial shelving, offering innovative solutions at competitive prices and high quality, from simple racks to the most sophisticated and complex systems, produced in Romania.

SRO Industry

SRO Industry is a supplier for cable management systems, wires & connectors, protection & fixing systems, and other dedicated products for cable assembly and harnesses. Our story began in 2011 by obtaining the first partnership contract with Schlemmer Romania for the development of the cable glands and wire protection systems market to promote this product solution in all fields of application of the industry. Our company is official distribution partner for Romania and Eastern Europe countries for several manufacturer of cable management systems as: PANDUIT, DELFINGEN, ANAMET, SIB, GREMCO and INTERFLEX. Target markets are: automotive, robotics, food and beverage, machinery and equipment manufacturing industry, naval equipment, the wagon and locomotive manufacturing industry, the oil and gas extraction industry.

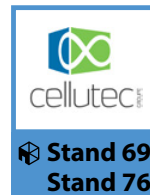

Naltek Solutions

Elantas Bectron product line materials, designed to protect your electronic devices. Specialized consulting services for Tier 1 customers. | Conformal Coatings - Thin film coatings with Alkyd, Silicone | Thick film coatings VOC free with PUR, Epoxy, Silicone | | Silicone (Gel type to soft-elastic molding materials, adhesives and sealings) | | Melting resin VOC free | | Potting (1k and 2k) | | Conductive inks, Insulating inks, Luminescent inks designed for Printed Electronics | | Thermal Interface Materials and Gap Fillers|

Finder Echipamente

Finder is one of the world's leading manufacturers of relays and timers. The company was founded in 1954 near Turin in northern Italy by Piero Giordanino, who in 1949 patented the first stepper relay for installations. Finder currently manufactures over 400,000 different products every day, marketed in over 80 countries through its 28 subsidiaries. The company has supplied relays for the Romanian market since the 60s, sporadically at the beginning, but after 1990 in a constant way. The company Finder Echipamente S.R.L., the 16th Finder subsidiary in the world, took being at the beginning of 2005 with the aim of providing the necessary support to customers in Romania but also to those in neighboring countries: Rep. Moldova, Serbia, Bulgaria and Macedonia. At the beginning, the company carried out its activity in the city of Cluj-Napoca, then, as a result of the continuous development of the Romanian market, the new headquarters in Turda, Cluj county was inaugurated in 2012.

Cellutec

We've been delivering quality since 1980! The history of the Cellutec Company Founded in 1980, CELLUTEC is today the leading European player in foam processing in the custom packaging, acoustics and industrial application sectors. A pioneer in foam processing, Cellutec has developed its real expertise over several decades and made it a point of reference in this field. As a French industrial conglomerate, the Cellutec group has five production plants (including Corrupad) in France and one in Romania. All its factories offer European coverage and local service. Since 1993, the Cellutec group has been integrated into the French industrial holding company AMIQUAR, which mainly controls about 50 industrial companies (300 million euros) Based between Brasov and Bucharest, close to Ploiesti, Cellutec Romania is a packaging specialist. We can convert foam and polypropylene, but we also have a wide range of resale products.

Vieweg

Dispensing specialist Vieweg GmbH offers products, technic and know how to all kind of questions belonging to dispensing of fluids and pastes. This can be a varnish on a board a point on a pencil or a line of adhesive on a cover. We find solutions for applying your low-, middle- und high viscose material exactly. Our strength lilies in dispensing small amounts in almost all production processes. Adhesives, greases, oils are dispensed just like silicone or casting compounds. Depending on the application, 1-component or 2-component systems are used. The product range extends from simple manual systems to multi axis dispensing robots.

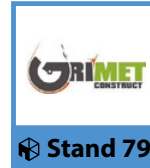

AWS Elektrotechnik

AWS Elektrotechnik proposes reliable solutions for equipment and systems used in most of the areas that form the industrial sector. The company, founded in 2012, is backed by the expertise of a team of professionals with extensive experience gained from the sustained activity in all the specific stages of the industrial segment. Through its strengths, the company provides more than equipment and parts for industrial machinery, also coming with an element that adds important value, namely pre- and after-sales services. Also our company offers a full range of consumables such as ESD PPE, Soldering Alloys, Adhesives, Conformal Coatings, Cleaners, SMT Stencils and many others.

Profimatt

Profimatt is one of the main suppliers in Romania for technical training and workshop programs especially in the plastic molding domains.

Grimet Construct

Grimet Construct is a manufacturer of mechanical parts using cutting, turning, milling, drilling, welding, and manual assembling as fabrication processes. We have CNC machines (manuals, semiautomatic, full automatic), welding robots, 3D machine for measurements. As a market we have a large specter as: automotive, industrial, food, electrical distribution, aviation, railway and we deliver Europe but overseas as well. Our company is also specialized in the design and manufacturing of special machines and devices with wide range of applications: assembly lines, end of line tester, conveyors and transportation systems. Therefore, we are able to produce as a manufacturing batch from unique parts to thousands, which is usually highly appreciated by our customers.

Technis Systeme Ro

Created in 2016, TECHNIS masters the manufacture of precision mechanical parts. Its know-how covers industrialization, bar turning, machining, grinding, electro-erosion, control, finishing and extends to the assembly of sub-assemblies.

Examples of production: motor shafts, pistons, bearings, pump shafts, punches and dies for cutting tools, etc.

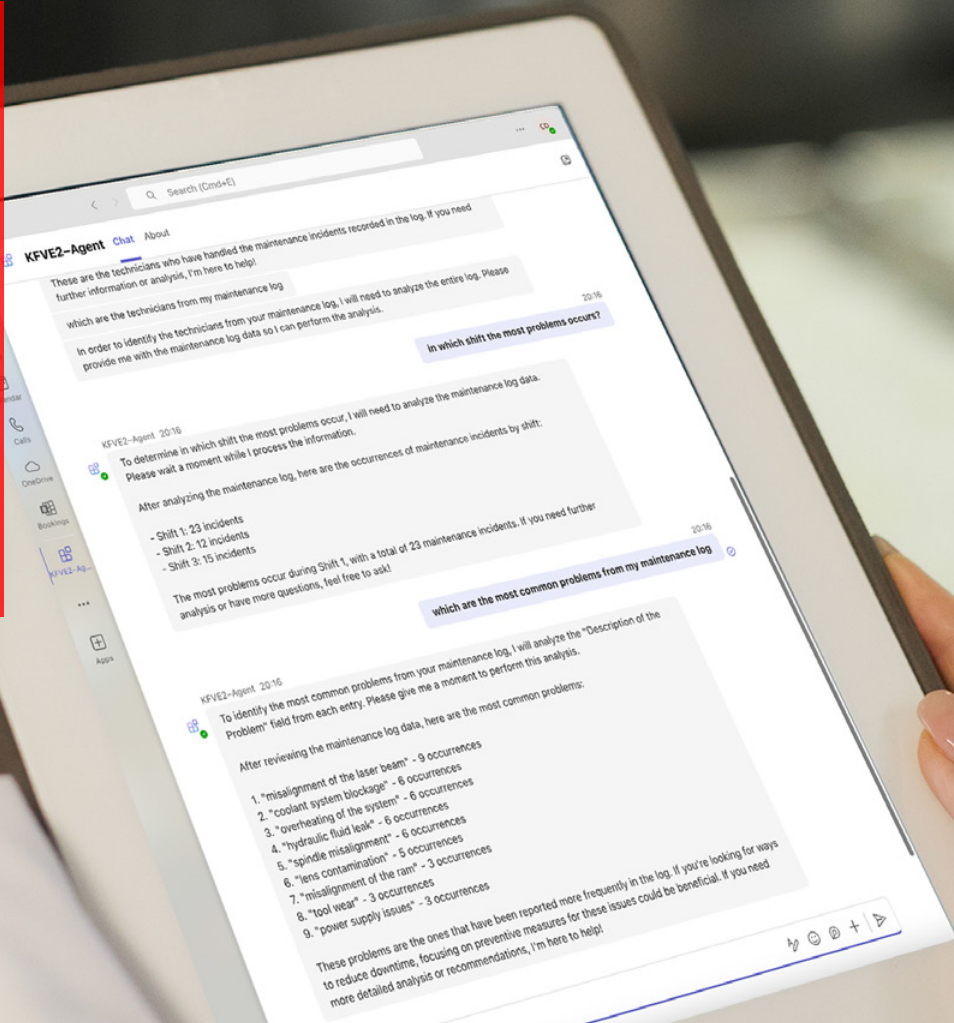

Transilvania Business

Monthly magazine Transilvania Business is the sole premium publication mainly focused on economic activities in Transylvania and Banat – Romania, but also integrates articles about main national investments and projects and also international trends & events
